

POLICE HERO DIES OF WOUNDS

Baumeister Passes Away
in the Hospital After
Fight for Life.

HELD MAN WHO SHOT HIM.

Though Mortally Wounded,
Officer Prevented the
Murderer's Escape.

POLICEMAN BAUMEISTER.

Policeman Baumeister, House
Sergeant Muller and visiting Surgeon
Haynes, of the Harlem Hospital, today
gave up the struggle to save the life of
Policeman William Baumeister, who was
mortally shot in One Hundred and
Twenty-third street, near Second avenue, by
Frank Brizena, a Sicilian, after working
over him for hours. He died at 5:30 this
afternoon.

The bullet entered his stomach, ranged
down and penetrated the liver.

Baumeister's life is the penalty of
Sicilian treachery and his own daring.
He walks the most dangerous beat in
Harlem—the upper east side Italian
quarter between Second and First
avenues and One Hundred and Tenth
and One Hundred and Fifteenth streets.

While on his post last night he heard
a row in One Hundred and Thirtieth
street. He saw Brizena, who lives at
325 East One Hundred and Fifteenth
street, quarrelling with Braggio Biffo,
of 319 East One Hundred and Tenth
street. Mixed in the row were Donato
Archetto, Pasquale Chieppa and Fran-
cisco and Donato Paresi. All of them
were known to Baumeister, who has
walked the beat for five years.

As he ran towards them, Brizena
hurled a brick at Biffo. The crowd
broke into a run as the policeman ap-
proached. He followed them to Second
avenue, thence south to One Hundred
and Twenty-third street, where all fell
back but Brizena, who turned toward
Baumeister. Baumeister continued ad-
vancing, shouting to him to halt.

In the middle of the crowd the man
stopped and waited until the officer came
up. The policeman thought the fellow
was going to surrender, but when he
was only a few feet off, Brizena took
a pistol from his pocket and fired twice.

The second bullet struck the policeman.
Wounded though he was, Baumeister
sprang forward and seized his assailant.
The ball had ploughed through his vital
but he had strength left to tear the
weapon from the Sicilian's hand and
drag him a prisoner back to Second
avenue, where there was a drug store at
the corner.

Baumeister's partner, Policeman John
Sullivan, heard the shots and reached
the corner just as Baumeister staggered
around the corner with his pris-
oner.

"This dog has plugged me, John,"
said the wounded man, as he dropped to
the sidewalk. Sullivan with more cau-
tion "fanned" his prisoner with his
night stick to see if he had a sliver,
but found none and ordered him to
stand against the wall, under pain of
being shot down, while he lifted him
lying partner into the drug store.

Policeman Sullivan was admitted to
the drugstore after Mrs. Baumeister had
gone.

"I'm afraid I'm done for, John," said
Baumeister, when his partner entered.
"Give an awful pain in the back. Lift
me up."

The big policeman took him in his
arms and held him comfortably until the
druggist's groaning man was carried to
him, and he left the room in tears.

Coroner Hart went to the Harlem Hos-
pital this afternoon to take the ante-
mortem statement of Baumeister. Dr.
Haynes, assisted by the physicians of the
hospital, performed the operation of
autopsy on Baumeister, and closed
four perforations of the small intestine
made by the bullet.

Sold from Nome.
SEATTLE, Wash., Nov. 30.—The
Steamer Portland has arrived from
Nome with 100,000 and seventy-eight
passengers. Capt. J. E. Hanson, Super-
intendent of Transportation of the
Alaska Commercial Company, and Lieut.
D. H. Jarvis, special agent of the Treas-
ury Department at Nome, were among
the passengers.

GATES WINS IN BIG TRUST FIGHT

Steel Magnate Gets Re-
ceiver Appointed For
Guardian Company.

ST. LOUIS, Nov. 30.—Judge Amos
Thayer, in the United States District
Court, has appointed F. M. Black, of
Kansas City, receiver of the Guardian
Trust Company, of which A. E. Stillwell
is President. The appointment was
made on Judge Thayer's decision in the
suit recently brought by John W. Gates,
of Chicago, and other stockholders.

Receiver Black formerly was Judge of
the Missouri Supreme Court.

The petition for a receivership was
filed in Kansas City on Oct. 23 last,
the day before the stockholders were to
have held a meeting to elect a new
Board of Directors.

The Gates petition also asked for an
injunction to prevent the holding of the
meeting. Judge John F. Phillips granted
the injunction and set a later date for a
hearing on the receivership question.

The petitioners contended that Stillwell
took advantage of them in the character
of securities placed in a reorganization
of the company. The bonds of the old
Kansas City, Pittsburg and Gulf Rail-
road (now the Kansas City Southern, in
which Gates is interested) figured in the
bill and the contention was made that
the stockholders were in danger of los-
ing \$100,000 if Stillwell were allowed to
carry out his plans.

The Gates petition also asked for an
injunction to prevent the holding of the
meeting. Judge John F. Phillips granted
the injunction and set a later date for a
hearing on the receivership question.

The petitioners contended that Stillwell
took advantage of them in the character
of securities placed in a reorganization
of the company. The bonds of the old
Kansas City, Pittsburg and Gulf Rail-
road (now the Kansas City Southern, in
which Gates is interested) figured in the
bill and the contention was made that
the stockholders were in danger of los-
ing \$100,000 if Stillwell were allowed to
carry out his plans.

DR. ED. KOCH
Has Returned to New York.

Dr. Robert Koch. Dr. Edward Koch.
THE TWO DR. KOCH
and Their Great German Dis-
coveries and Inventions.

Seven years ago Doctor Robert
Koch discovered his tuberculin med-
icine for the cure of Consumption.

It was the first remedy that ever
did actually cure this fatal disease,
although by injection it only suc-
ceeded to a limited extent.

Two years later the wonderful
Inhalation Machine for the vaporizing
of healing oils combined with this
Koch Tuberculin was invented and
imported to this country by Dr. Ed-
ward Koch. By the use of this inven-
tion only vapors combined with the
tuberculin medicine, are brought
directly to the lungs at the seat of
the disease, and thousands of people
have testified to being cured. Since
these two systems have been com-
bined the patients and offices have
been under the direct control of
Doctor Edward Koch.

The two doctors are each typical
Germans, and are both modest and
retiring, and while Doctor Edward
Koch has by his wonderful Inha-
lation Machine brought this remedy
to a successful issue, yet it must not
be forgotten that Doctor Robert was
the discoverer of the remedy (called
the Tuberculin) which Doctor Ed-
ward used in his apparatus, as here
shown, which shows how this
Tuberculin into the lungs in combi-
nation with healing oils vaporized in
a manner that enables the med-
icine to be breathed
directly into the dis-
eased lung, so this
great remedy can be
used in the disease itself.
It kills the disease
germ and heals the
lung. The old way of
swallowing medicine
into the stomach kills
more people than the
disease itself.

Doctor Koch is the only physician
by that name in New York City.
Consumption is free.

He and his cousin, Robert, have
spent a lifetime in the treatment and
cure of Consumption and Asthma,
and he is making a trip of investi-
gation of the American Koch Lung
Cure offices, which can be found in
most of the large cities, the main
office being at 48 West 22d st., New
York. This city has no branch office.
The Philadelphia Koch Lung
Cure Office and Sanitarium is at 1334
Arch street. Send for booklet ex-
plaining treatment.

Coroner Hart went to the Harlem Hos-
pital this afternoon to take the ante-
mortem statement of Baumeister. Dr.
Haynes, assisted by the physicians of the
hospital, performed the operation of
autopsy on Baumeister, and closed
four perforations of the small intestine
made by the bullet.
